

PREPAID Metering

Pay What You Want, When You Want

- Eliminate Deposits and monthly bills
- Customize a payment schedule
- Buy electricity at your convenience
- Monitor your electric consumption

No Deposit

New customers wishing to participate in the prepaid metering program are not required to pay a deposit. Only a \$50 minimum credit balance is required at the time service is requested, in addition to the standard membership fee, and account establishment fee.

Will I Receive a Bill?

No. Prepaid metering accounts do not receive a monthly bill. However, each account will receive a newsletter each month to keep you up-to-date with current news from CGEMC.

Pay When You Want

A prepaid metering plan offers the opportunity to pay when you want, in the amounts you want. Instead of receiving a traditional paper bill that is generated once each month, usage is calculated daily. Prepaid metering customers never pay a late charge.

What If I am A Current Customer and Want to Switch?

Current customers that elect to switch to prepaid metering are eligible to have their deposit applied toward their current energy consumption. This puts any applicable deposit money to work NOW.

How Much Money Should I

Keep in My Prepaid Metering Account?

The prepaid metering plan fits YOUR budget. You can buy enough energy to last until payday, or you can buy enough to last several months. The prepaid metering plan is a self-managed program.

How Do I Make Payments?

Payments can be made in person, by telephone, or online.

Statistics indicate prepaid metering programs help lower electric consumption due to member's awareness of usage patterns.

For More Information: Please Visit www.cgemc.com or call us at 770-775-7857 or 800-222-4877

How Do I Know if My Balance is Low ?

Knowing your balance is as simple as watching the gas gauge in your car. Prepaid metering customers choose how they are notified when their balance is running low.

Notifications can be received via e-mail, automated calling service, or text message.

Each prepaid metering customer chooses the balance at which they begin to receive notifications.

How Do I track My Usage ?

Track your Daily Electric Usage with the CGEMC Customer Portal – Log on to the CGEMC Customer Portal at www.cgemc.com and click on the My Usage tab. Usage monitoring may help you save money by making you more aware of the energy you consume every day. When you set up alerts, you can receive daily usage alerts by email or text, as well as alerts to let you know when your consumption goes over the limits that you have defined.
